The house is located on a hillside with a significant slope that opens to the south, the land was already consolidated at the time of design: the garden, pool and parking are pre-existences of the previous house and the land conditions make the most sensible decision to rest on existing foundations, so the project takes an uncommon complexity and becomes a discreet and silent arrangement of volumes, based on rules outside itself.

The public spaces are distributed on the first floor and the private spaces on the second floor, forming a natural and familiar organization in which the value is given by the relationship between full and empty spaces, allowing each element to be understood as autonomous while also being part of a total. Inside, there is an obsessive level of definition in each piece of furniture and element that builds the space, turning the whole into an unrepeatable collection of design pieces. On the outside, the existing architectural authenticity of the place is respected and the rough and crumbling skin of the house is transformed into an abstract and timeless volume that, without ignoring the pre-existences, seems to have been in the same place forever.

The new divisare books are small format pocket-book size, in limited editions of 200 copies, high-resolution digital printed, bound, with a hardcover, finished in fine English paper. Titles on the cover are silver foil hot stamped. We attach great importance to the tactile quality of the book as an object as well as, of course, its contents. Unlike the web that runs fast and vanishes faster, leaving no trace, Our books have the aim of lasting in time. The idea is simple: printed paper instead of pixels; we just want to invite you to get away from the screens of your devices for a moment, to sit back in a favorite armchair and enjoy a good read, in the old fashioned way.

HELP US SWIM AGAINST THE TIDE.

Join us in taking a stand against the short attention architecture media.

Divisare is the result of an effort of selection and classification of contemporary architecture conducted for over twenty years. Patient work, done with care, image after image, project after project, to offer you the ideal tool with which to organize your knowledge of contemporary architecture. Instead of a quick, distracted web, we want a slow, attentive one. Instead of hastily perused information, we prefer knowledge calmly absorbed. This

is why Divisare is a place to perceive architecture slowly, without distractions. No click — like — tweet — share, no advertising, banners, pop-ups. Just architecture, no more and no less.
