Bedroom Unit is a minimalist design created by Berlin-based designer Sebastián Erazo Fischer. Bespoke furniture unit for a long and narrow bedroom (560x192cms) that has its entry from the living room through double doors placed in the middle of the room. To one side the unit has closet functions, and to the other it works as storage, a bookshelf and a side table for the bed, which occupies the whole width of the room and is placed near the window. It is made out of four modules: two low chest of drawers that work as

doors.
